

www.friendsintech.com

Do you need a friend to help you with your technology issues?

You'll find a new group of friends at Friends in Tech.com an association of technology experts whose blogs and podcasts can help everyone...from the beginning computer user to IT Professionals.

Our shows provide for all your tech needs from news, career advice to administrative tricks to pure crazy geek fun. We work in tech by day and bring that experience to you by night. Additionally, our bloggers, Mike McBride, Andy Helsby and David Wertz provide exclusive content to our Friends in Tech web site -- bringing you the latest in tech news and commentary.

Visit friendsintech.com or search for Friends In Tech in iTunes.
